

ARTPOL

ESD PACKAGING SOLUTIONS

ARTPOL
ESD Packaging Solutions

WHO WE ARE & WHAT WE DO

We have **over 26 years of experience** in the packaging industry. For **more than 20 years,** we have specialized in **ESD packaging solutions,** supporting customers across various sectors.

Our core business is the **design and production of specialized ESD packaging** for a wide range of industries. All our products are **manufactured in Europe,** ensuring high quality standards and reliable supply.

At Artpol, we produce ESD packaging from A to Z, with a strong focus on custom-designed solutions tailored to our customers' needs.

We are a Poland-based company, but our products are recognized and used by customers across Europe.

ARTPOL STRATEGIC LOCATION ADVANTAGES

🌍 **CENTRAL EUROPE ACCESS**
BERLIN 550 KM / 6–7H, PRAGUE 700 KM / 8H

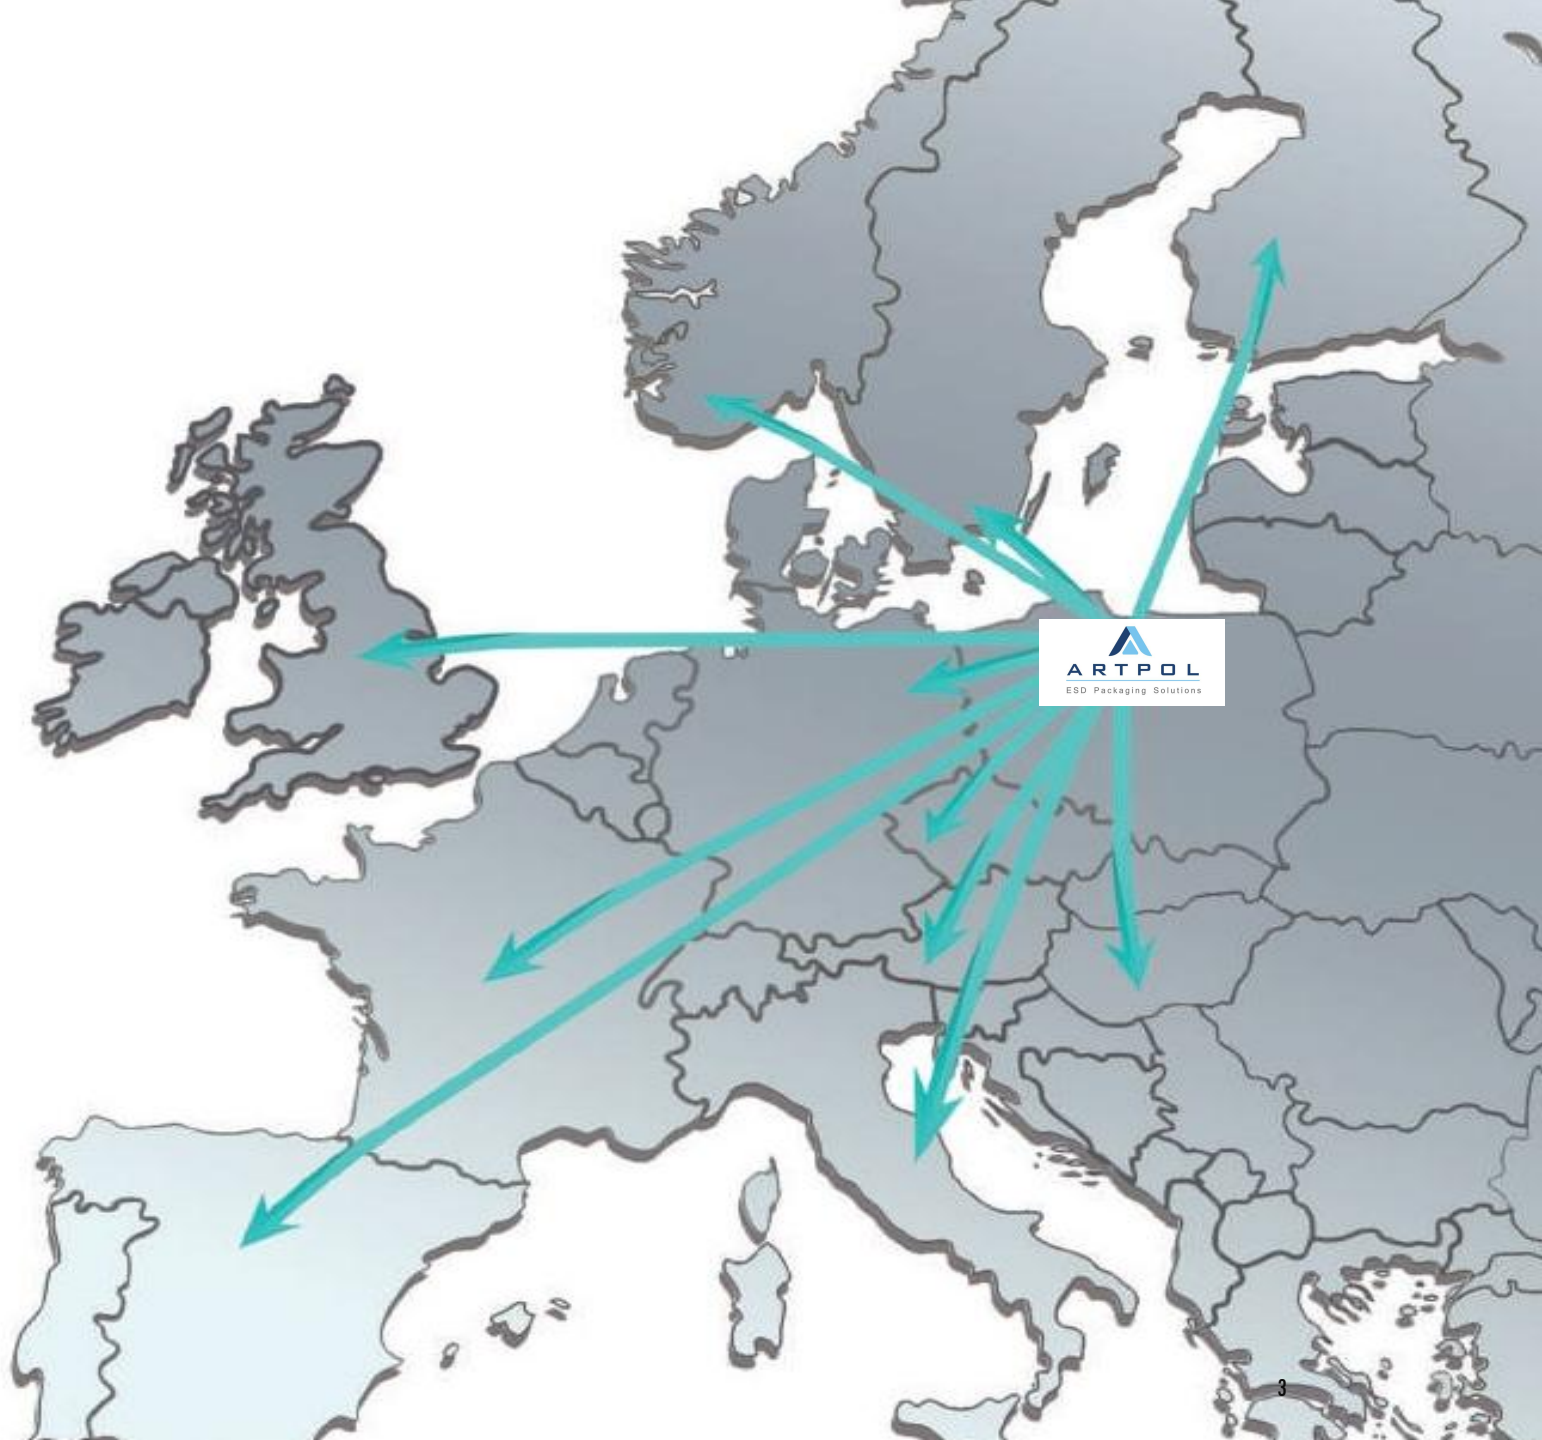

🛄 **NEAR GDAŃSK PORT & AIRPORT**
80 KM / ~1H

🛣️ **HIGHWAY CONNECTIVITY**
30 MIN. AWAY FROM HIGHWAY

⚡ **FAST & FLEXIBLE DELIVERIES**
URGENT ORDERS HANDLED QUICKLY

🔒 **RELIABLE SUPPLY CHAIN**
STABLE AND SECURE SHIPMENTS

💰 **OPTIMIZED LOGISTICS COSTS**
SHORTER ROUTES ⟶ LOWER TRANSPORT COSTS

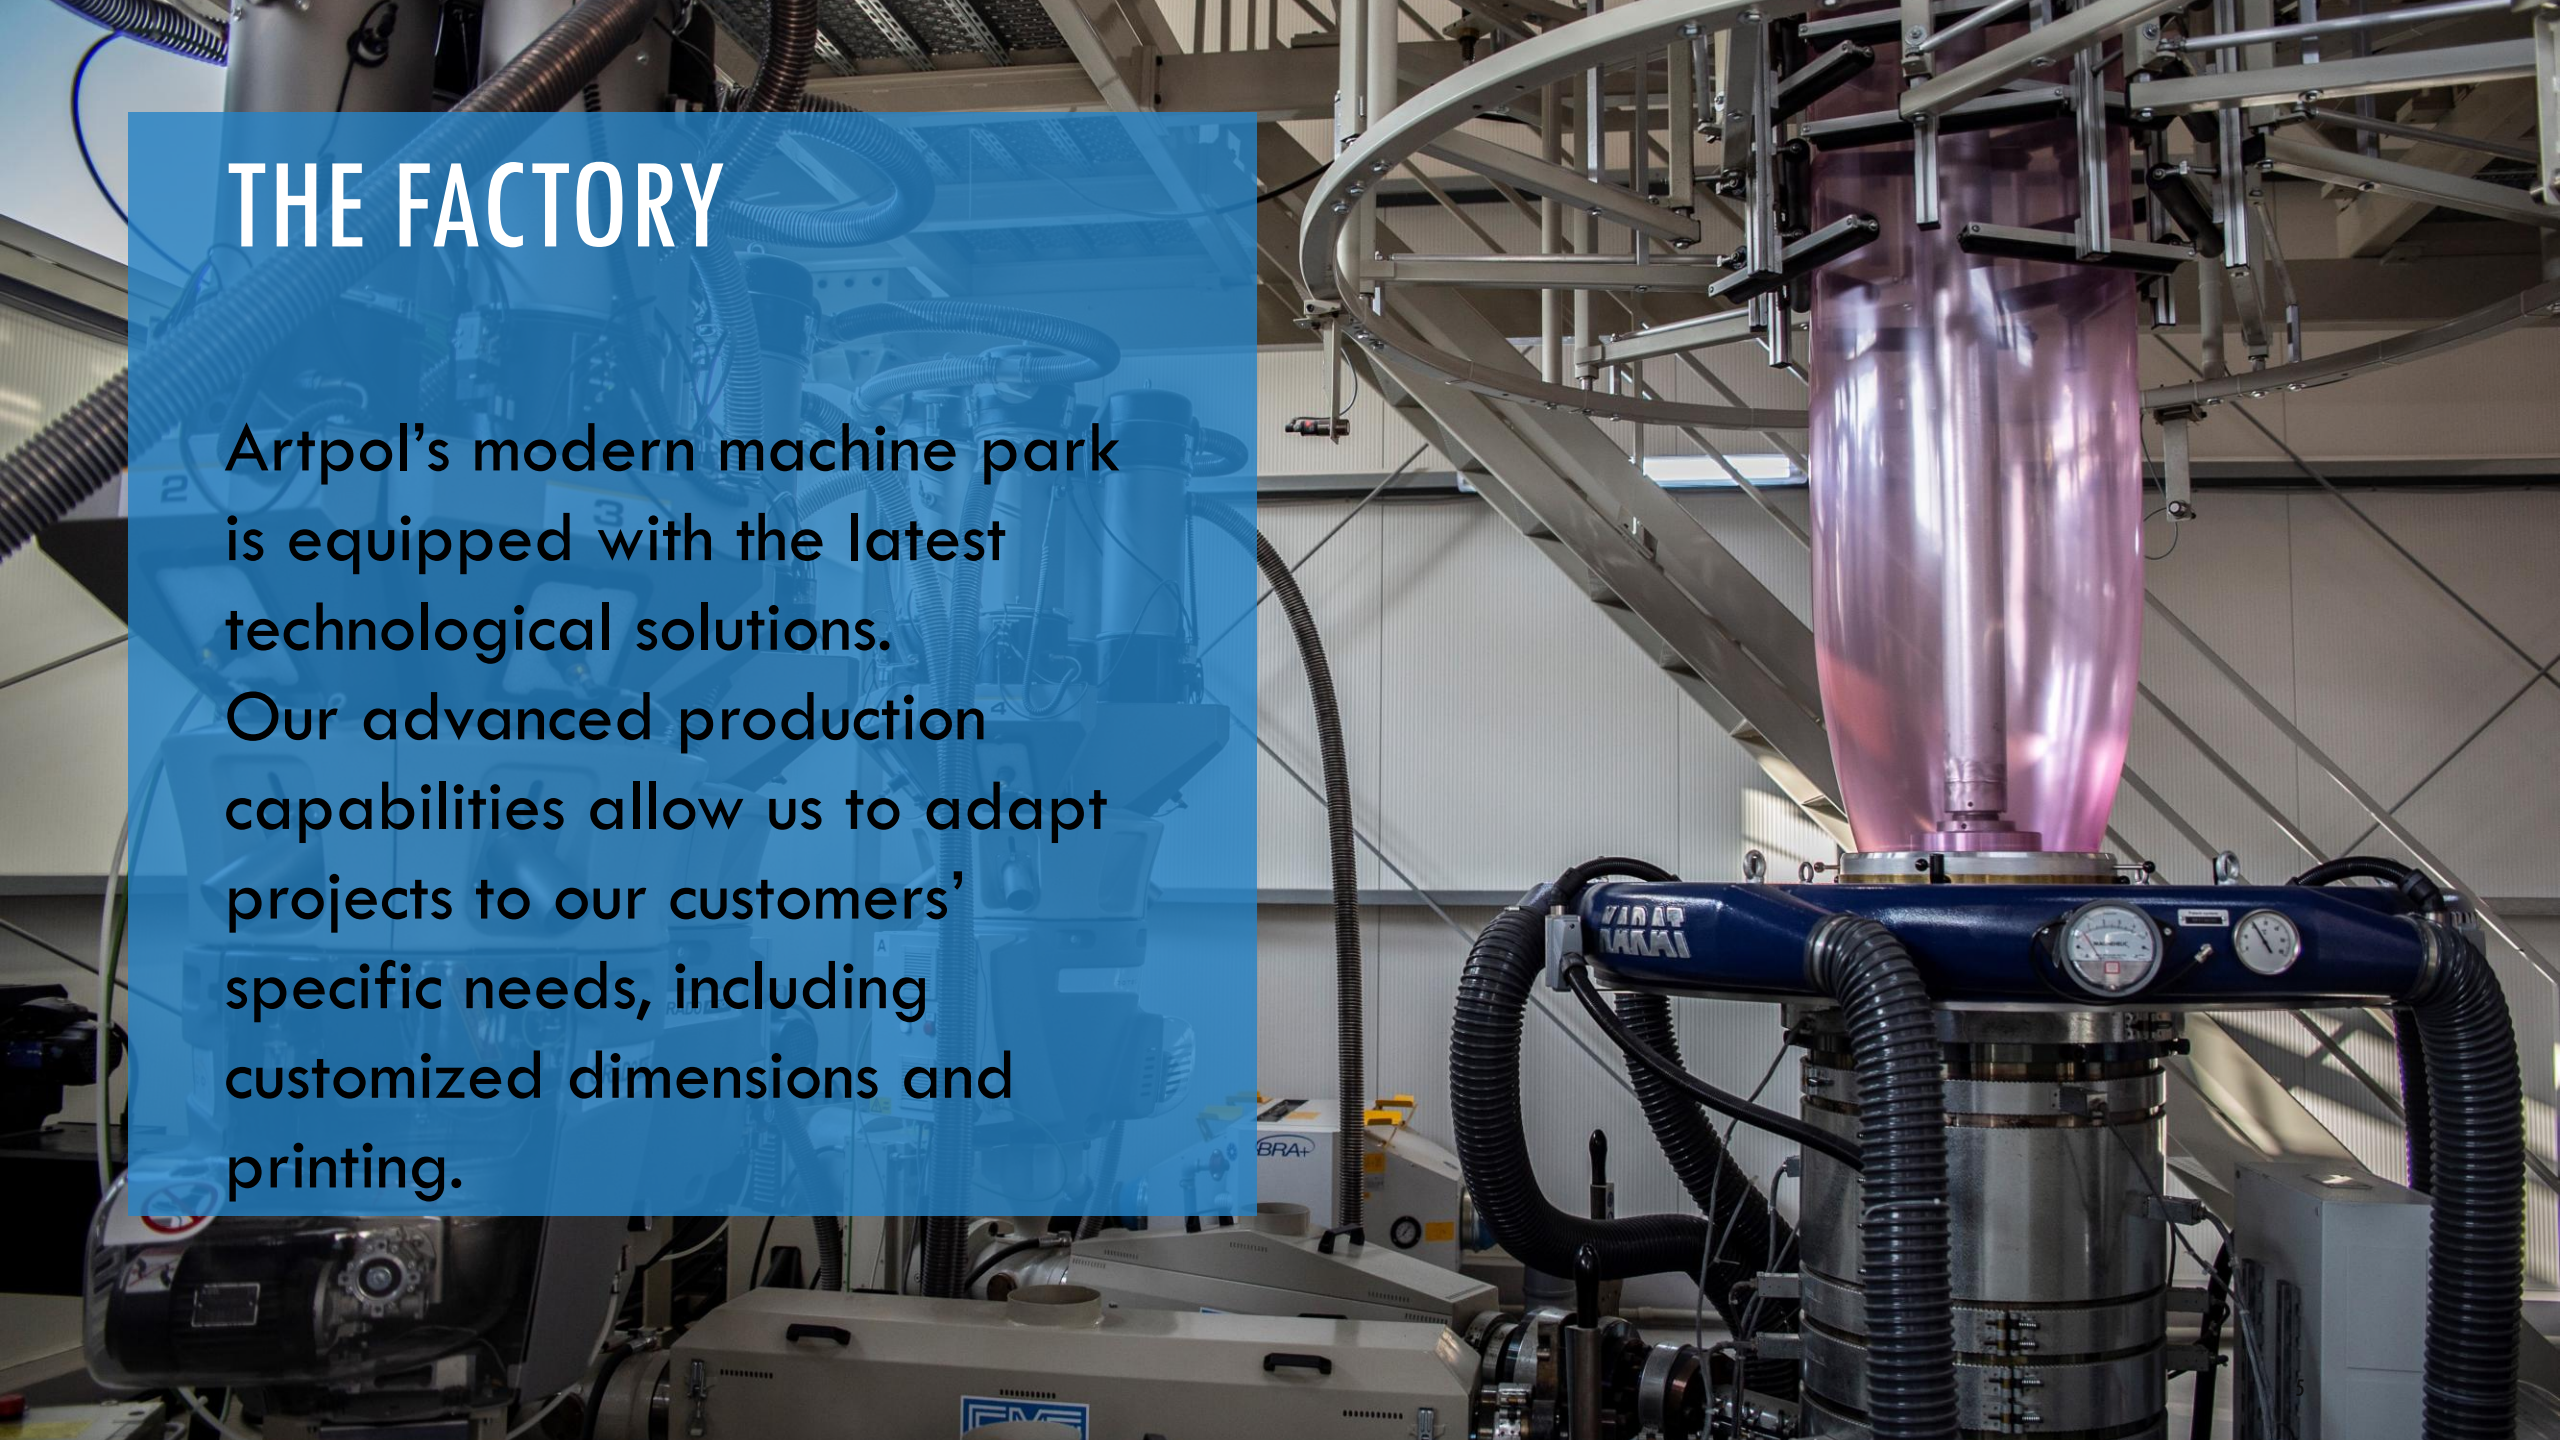

FOCUS ON QUALITY

Artpol is certified according to **ISO 9001:2015 by TÜV** and complies with **IEC 61340-5-1 / 61340-5-3 standards** as well as **EU RoHS and REACH directives.** We are also a member of the **International ESD Association.**

We continuously invest in **research and development** and implement the **latest technologies** to ensure the highest quality and reliability of our products.

THE FACTORY

Artpol's modern machine park is equipped with the latest technological solutions.
Our advanced production capabilities allow us to adapt projects to our customers' specific needs, including customized dimensions and printing.

THE LABORATORY & QUALITY CONTROL

Our quality control laboratory is equipped with a system that maintains humidity levels at 50%.

In addition, our laboratory features a climate chamber where we conduct test of our products under variable environmental conditions.

We also use professional sealing and vacuum equipment for MBB bags, which allows us to regularly verify their sealing performance and overall quality.

OUR OFFER

ARTPOL
ESD Packaging Solutions

ESD DISSIPATIVE

Protects from harmful static electricity discharge during delivery inside the EPA zone and when products are coming out.

ESD SHIELDING

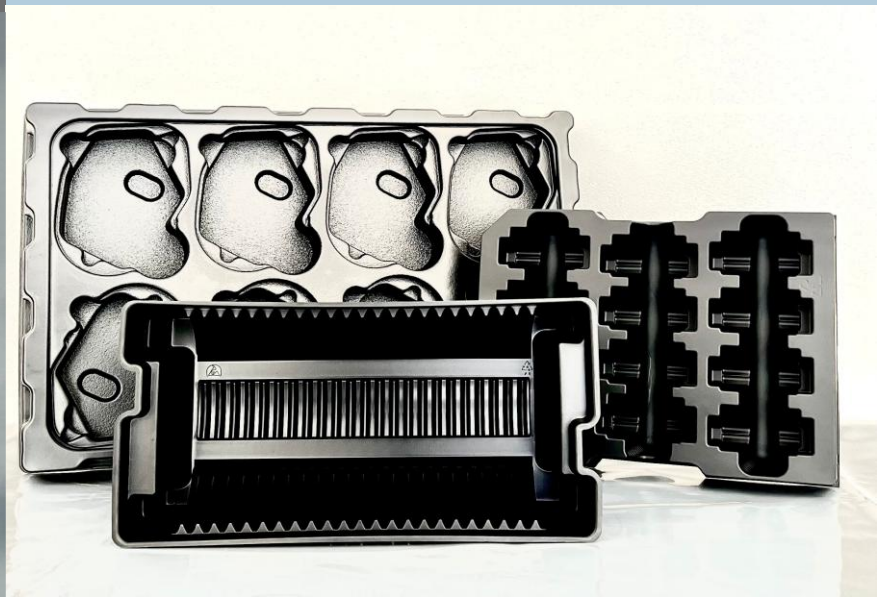

Provides the highest protection of integrated circuits against ESD and EMI discharging during transport.

ESD DISSIPATIVE / CONDUCTIVE

Is used for external transport of electrostatic, discharge-sensitive products.

ESD DISSIPATIVE

Protects products from harmful electrostatic discharges during handling and transport within the EPA zone, as well as when removing items from the packaging.

ESD DISSIPATIVE MIGRATING

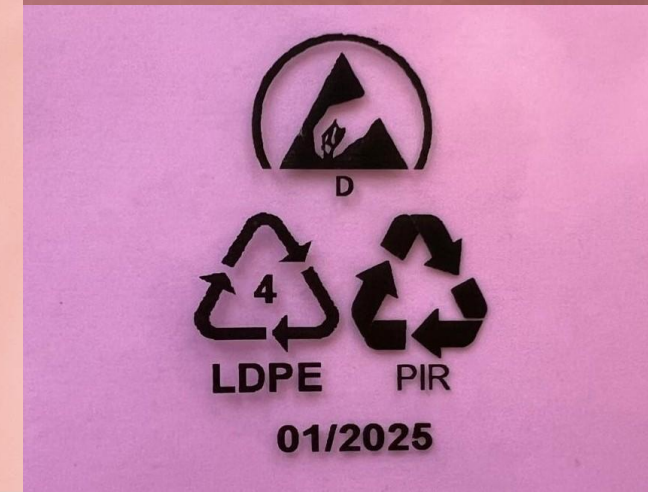

ESD DISSIPATIVE PERMANENT

ESD DISSIPATIVE PCR / PIR

ESD DISSIPATIVE: MIGRATING OR PERMANENT?

ESD dissipative **migrating** packaging keeps its antistatic parameters only at specific conditions: **humidity above 50%, temperature above 23°C**.

VS.

ESD Dissipative Permanent Plus packaging maintains its antistatic properties under various environmental conditions and has **no shelf-life limitations,** ensuring long-term protection of sensitive electronic components.

ESD DISSIPATIVE – TYPES OF PRODUCTS

BAGS

- Open
- With a lap (envelope bag)
- With a zip lock
- With closing tape
- Waste bags
- Bags for containers / gussets

LDPE FILM

- Film as tape
- Film as half-sleeve
- Film as sleeve

BUBBLE WRAP

- Film on a roll
- Sheets
- Bags (different types)

Each form available as 2L
or 3L and in various thickness options

ESD DISSIPATIVE – TYPES OF PRODUCTS

STRETCH FILM

- On a hand roll
- On a machine roll

Each form available in various thickness & elasticity options

POLYETHYLENE FOAM

POLYURETHANE FOAM

ESD SHIELDING – TYPES OF PRODUCTS

SHIELDING BAGS

- Open
- With a lap (envelope bag)
- With a zip lock
- With closing tape
- With protective safety tape

MBB BAGS

- Open

ESD SHIELDING – TYPES OF PRODUCTS

SHIELDING BUBBLE WRAP

- Film on a roll
- Sheets
- Bags:

✓ - Open
✓ - With a tab
✓ - With closing tape
✓ - With protective safety tape

SHIELDING AND MBB FILM

- Film as tape
- Film as half-sleeve
- Film as sleeve

ESD SHIELDING – TYPES OF PRODUCTS

Innovation meets sustainability

EcoShielding is a new-generation monolithic shielding material designed for full recyclability and superior ESD protection.

Unlike traditional multi-layer laminates, the monolithic structure allows 100% material recovery without separation of layers, ensuring both sustainability and process efficiency.

The material's performance has been verified by an independent research institute, confirming its outstanding electrostatic shielding efficiency and durability.

EcoShielding demonstrates the highest achievable protective parameters in terms of both discharge energy dissipation (shielding efficiency) and charge retention capacity, ensuring maximum protection for sensitive electronic components.

EcoShielding

100% recyclable ESD packaging

ESD DISSIPATIVE / CONDUCTIVE – TYPES OF PRODUCTS

ESD CONDUCTIVE PACKAGING

- **Bags**
- **Sleeve**
- **Half- sleeve**

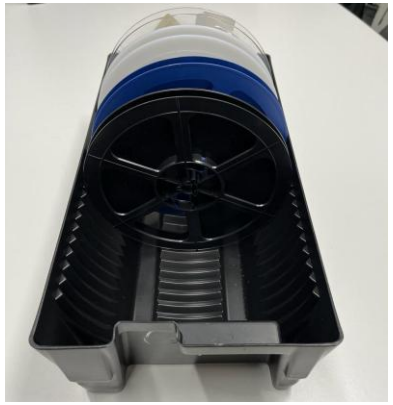

Our conductive film products are ATEX-certified for use in potentially explosive atmospheres.

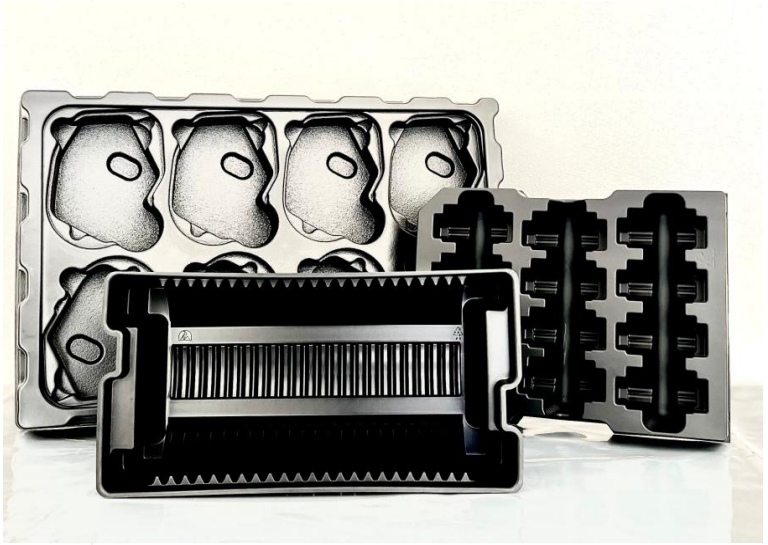

ESD DISSIPATIVE / CONDUCTIVE – TYPES OF PRODUCTS

ESD PS, ABS, PET THERMOFORMING PACKAGING

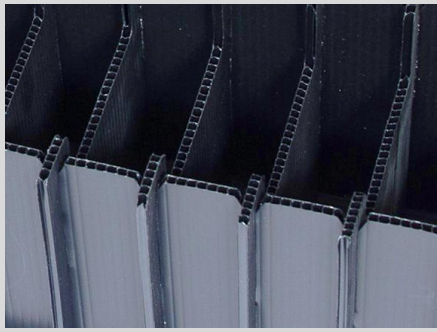

- Returnable and single-use shipping trays
- Interprocess trays
- SMD reel stand
- Trusses

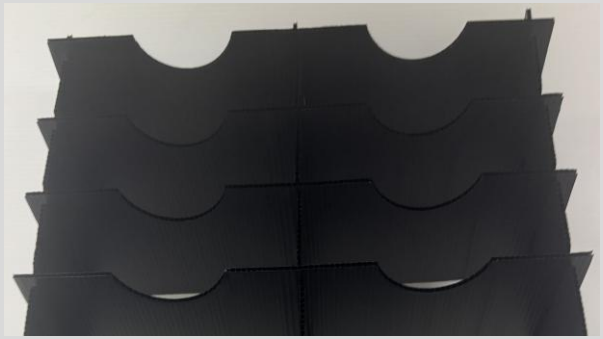

ESD CONDUCTIVE POLYPROPHYLENE PACKAGING

- Boxes
- Trusses
- Dividers / Inserts
- Transport system

ESD DISSIPATIVE / CONDUCTIVE – TYPES OF PRODUCTS

ESD CONDUCTIVE CORRUGATED CARDBOARD

- Boxes
- Trusses
- Dividers / Inserts
- Transport system

ESD DISSIPATIVE / CONDUCTIVE FOAM

- Inserts
- Trusses
- Sheets
- Boxes

WHAT NEW IN ARTPOL?

In 2026, ARTPOL has continued its strong growth and commitment to innovation.

We have invested in a new **multi-layer extruder** equipped with state-of-the-art measurement systems. This investment has increased our production efficiency, expanded our production capabilities, and raised our overall production output.

In addition, a **new automatic bag sealing machine** has been implemented, improving product quality and reliability while also contributing to faster and more efficient production.

These strategic investments made in 2026 demonstrate ARTPOL's commitment to strengthening its operations and providing the best possible service to our clients.

By modernizing our production lines, we have further increased our ability to meet growing demand, maintain high-quality standards, and offer flexible solutions that support our customers' success.
